ABOUT US
Coral Triangle Center (CTC) is a non-profit organization based in Bali. Established in 2010, CTC provides education, training, and makes sure that marine protected areas within the Coral Triangle - the world’s epicenter of marine biodiversity - are managed effectively.

CTC’s Center for Marine Conservation is an integrated learning space dedicated to coral reef and ocean protection. We provide eco-friendly training facilities, immersive fun-learning programs, and creative workshops for people from all walks of life to learn and be inspired to protect our reefs and oceans.

Come and learn with us and make your stay in Bali a memorable and rewarding one!

All proceeds from fun learning activities support our marine conservation programs in Indonesia and the Coral Triangle.

Games for Change: Escape Room

Escape Room “SOS from the Deep” is the first ever marine conservation themed Escape Room in Indonesia. It is a fun interactive game aimed to inform people about the ocean environment, and the threats it faces while they challenge themselves against the puzzles. Through this game, users will have a greater understanding of the situation and what they can do or contribute to save the ocean.

Contribution:
Rp 120,000 / adult player / game (2-6 players / game).

Fun Learning Class

Learn basic knowledge about the ocean and marine life, and why we must protect them. Through a 30 minutes’ presentation followed by fun quizzes and games, participants will be able to understand the issues that our oceans face and their existing solutions. Current available classes are: Happy Corals in a Marine Protected Area; Our Fish in the Sea and Plastic Pollution.

Adopt A Coral

Play a part in saving corals by donating to our Adopt A Coral program. The donation will go to planting a coral in our nursery in Nusa Penida Marine Protected Area. The baby coral will be monitored by Satya Posana Nusa (SPN), a local environmental awareness community. Participants will be able to participate in a simulated dry tagging of the coral at the Center for Marine Conservation, using our ceramic coral pieces.

Contribution:
Rp 250,000 / baby coral.

Coral Clay Workshop

Learn about corals while making your own out of clay! Bring out your creative side and learn about the different coral life forms that exist in a coral reef while hand molding clay. The workshop is based on the Coral Universe sculpture at the Center for Marine Conservation, aiming to raise awareness on the beauty and fragility of coral reefs.

Contribution:
